

## Scorpion ICE&SNOW

Nordic

Performance

High Performance

Specifically designed to enhance the low-temperature performance of fast, luxury "Sports Utility Vehicles". Scorpion Ice & Snow is able to actively respond to road surfaces such as wet asphalt and gravel. Specifically designed to enhance the low-temperature performance of modern SUVs on snow. Like all Scorpion products, safety and comfort are prioritised in the tyre design and full control is assured even under the most demanding conditions. Effectively, Scorpion Ice & Snow enhances a vehicle's appearance - its strong personality suiting even the most aggressive styling conversions. Tread Pattern: Elegant tread pattern with asymmetric design with zigzag grooves, angled tread blocks and reinforced shoulder area. Sidewall design in the best Pirelli tradition. Self supporting Run Flat version soon available
