

Winter SNOWCONTROL

Nordic

Performance

High Performance

Winter Snowcontrol is intended to fit a broad range of cars, from city cars to medium sized vehicles, including MPV's. This versatile winteryre is the result of the know-how gained by Pirelli in developing high performance winteryres. Delivering superior traction and safe performance in adverse conditions. It performs in low temperatures thanks to a high-silica tread compound.

The tread composition, combined with the original directional tread pattern design, affords maximum adhesion on ice, snow and in the wet, at the same time assuring optimum performance and ride comfort on dry road surfaces.

SIZE RANGE

RANGE DESCRIPTION	
55	
175/55R15 77T WINTER190SNOWCONTROL	
60	
185/60R15 88T WINTER190SNOWCONTROL	
185/60R14 82T WINTER190SNOWCONTROL	
175/60R15 81T WINTER190SNOWCONTROL
